North American Price List – 2010*

Starter Kits

Industrial Bakery Starter Kit™	\$ 3,369
For conveyORIZED industrial ovens. Includes two Barker™ units for extended range.	
ThermoBiscuit Starter Kit™	\$ 1,972
Use for real-time measurement in rack ovens or wireless data logging in larger ovens.	
ThermoBiscuit Real-Time Kit™ (No data logger capability)	\$ 1,473
For real-time measurement in rack ovens, cooling tunnels & freezer lines.	
ThermoBlade Starter Kit™	\$ 2,649
For low clearance oven & freezer lines. Use in real-time or as a data logger.	
ThermoBlade Real-Time Kit™	\$ 1,444
Use for real-time measurement in ovens, cooling tunnels & freezer lines.	
ThermoSpyder Starter Kit™	\$ 1,595
16-Channel wireless temperature measurement system.	
ThermoSpyder Real-Time Kit™	\$ 944
8-Channel real-time wireless temperature measurement system.	

Wireless Measurement Modules

ThermoBiscuit™	\$ 775
Wireless 8-Channel Temperature Monitor for Extreme Environments (includes permanently attached thermocouple probes & batteries)	
with eight (8) female LCP miniature thermocouple connectors	<i>add</i> \$ 249
with eight (8) female ceramic miniature thermocouple connectors	<i>add</i> \$ 299
ThermoBlade™	\$ 995
Low Profile Wireless Temperature Monitor for Extreme Environments (includes permanently attached thermocouple probes & batteries)	
with eight (8) female LCP miniature thermocouple connectors	<i>add</i> \$ 249
with eight (8) female ceramic miniature thermocouple connectors	<i>add</i> \$ 299
ThermoSpyder™	\$ 495
8-Channel Thermocouple Monitor (includes one ThermoProbe™ assy. & batteries)	
ProofReader™	\$ 549
Low Profile Wireless Relative Humidity & Temperature Monitor	
GateWay™	\$ 449
Wireless Network Access Point (includes DataLink™- Basic Version software & USB cable)	
Barker™	\$ 549
Wireless Network Range Extender (includes Remote Antenna & batteries)	

Software Products

DataLink™- Basic Version	\$ 199
Integrated real-time data acquisition and display environment	
DataLink™- Lab Version	\$ 499
Integrated real-time data acquisition and display environment with data logger functionality, advanced real time display and auto chart generation	
DataLink™- Lab Plus Version	\$ 798
Integrated real-time data acquisition and display environment with Barker™ range extension capability and all Lab Version functionality	
Zone Cue™ Add-In Software Module	\$ 375
Displays oven zone vs. real time temperature data. User programmable zone lengths, temperature set points & belt speed.	
BreadProfile™ Add-In Software Module	\$ 375
Automatically calculates and reports bake time percentages to specific baking milestones such as yeast kill, starch coagulation, enzyme inactivation and final core temperature. Temperatures are user programmable.	

Thermocouples, Probes & Accessories

Thermal Barriers

ThermoSleeve™	\$ 249
(includes ThermoSleeve Retaining Strap)	
ThermoSleeve™ Retaining Strap	\$ 49
(for retrofit or replacement of lost strap)	

Thermocouple Positioners

TC-Bridge™	\$ 499
Bread Rib	<i>Please call for price</i>

ThermoAdapters™

ThermoAdapter™ Assemblies	Starting at \$144
8-channel ThermoSpyder to miniature thermocouple connector	
E, J, K, or T type, PFA Teflon / glass overbraid, SLE extension wire	
	Check web for exact pricing
ThermoAdapter™ Assemblies	<i>Please call for price</i>
8-channel ThermoSpyder to miniature thermocouple connector	
B, C, D G, N, R or S type, various insulation materials	

ThermoProbes™

ThermoProbe™ Assemblies	Starting at \$92
8-channel thermocouple assys., E, J, K, or T type	
Insulation options include PFA Teflon / Kapton / Glass braid	
	Check web for exact pricing
ThermoProbe™ Assemblies	<i>Please call for price</i>
8-channel thermocouple assy., B, C, D, G, N, R, or S type	
Various insulation materials

Terms and Conditions for North American Sales

NORTH AMERICAN PRICING: North American prices are valid only for customers located in the United States and Canada. Custom duties or tariffs are to be paid by the customer. Typical customs and delivery expenses to Canadian locations can add between 10 % and 15 % to the order price.

DELIVERY: Most of our products are available from stock and can be shipped within a few days of receipt of an order.

SHIPPING: All orders are shipped via UPS Ground Service, FOB Origin, Freight Prepaid & Add unless otherwise specified and agreed. The point of Origin is Los Altos, CA 94022. This means that Magna Systems pays freight charges; the buyer bears the costs of freight, handling charges, brokerage charges and taxes and duties. The buyer owns the goods while in transit and the buyer files for any claims that might arise in the course of shipping.

CREDIT CARD ORDERS: Magna Systems accepts Visa, MasterCard & American Express credit card orders. Please contact us with your order at 1-888-9 MAGNA 9 (962-4629).

PURCHASE ORDERS: Purchase orders are accepted from customers with approved credit. To apply for credit please contact our sales department at 1-888-9 MAGNA 9 (962-4629) or email us at sales@magnasystems.net. Purchase orders may be placed by phone, fax, mail or email. Please direct purchase orders to:

Magna Systems
450C First Street
Los Altos, CA 94022
Phone (650) 917-5900
FAX (650) 917-5901
Email: sales@magnasystems.net

PAYMENT TERMS: NET 30 days on approved credit.

RENTING AND LEASING: Magna Systems also rents and leases our full line of products. Please contact our sales department for details.

WARRANTY: All instruments, unless otherwise stated, are warranted to be free from defects in material and workmanship for one year from the date of shipment. See the product manual for details on how to exercise the product warranty.
